EXPERIENCE

AUGUST 2018 – SEPTEMBER 2020

Front-End Web Developer, CAD Designer, IWMS Administrator

Robert Stephen Consulting, LLC

- Developed over 25 Responsive SpaceView Bootstrap webpages with 100+ design and functionality updates using HTML5, CSS3, and jQuery/JavaScript.
- Polylined 100,000 – 150,000 square feet per week for various RSC clients in AutoCAD.
- Customized several hundred tasks, reports and home pages in ARCHIBUS Web Central.
- Created and modified hundreds of Views, Home Pages and reports in the ARCHIBUS Web Central software based on customer specifications.
- Utilized AutoCAD software to polyline several hundred architectural floor plans into our ARCHIBUS database to create valuable insights while also planning for space, equipment, and employees.
- Developed numerous Excel direct connect reports and designed Crystal Reports to give actionable insights into customer data such as terminations, new hires, and moves on a weekly, monthly, and yearly basis.

AUGUST 2015 – JULY 2018

Testing Analyst, Data Analyst

Applied Systems

- Performed weekly regression testing of data migration code on our standard data sets.
- Identified defects and tested new functionality in existing software during initial, regression, and release testing.
- Verified that a defect or user story worked on by the development team was properly fixed.
- Generated production databases using our ETL tools and wrote release notes for all assigned user stories.

- Managed client conversions to Applied Systems EPIC insurance management software from various source systems including TAM, INSTAR and VISION.
- Completed extensive research of data conversion issues while working closely with our implementation leads to come up with the best solution to our client's problems.
- Developed workflow and troubleshooting documentation for department wide use.
