EXPERIENCE

AUGUST 2018 – SEPTEMBER 2020
IWMS Administrator
Robert Stephen Consulting, LLC

• Created and modified hundreds of views, home pages and reports in the ARCHIBUS Web Central and Smart Client IWMS software based on customer specifications.

• Built Excel direct connect reports and designed Crystal Reports using SQL queries against customer data to produce actionable insights into customer data such as rentable square feet, terminations, new hires, and moves on a weekly, monthly, and yearly basis.

• Utilized AutoCAD software to polyline at least 30,000 square feet of CAD drawings into our ARCHIBUS database per day.

• Developed over 25 responsive SpaceView Bootstrap webpages for RSC customers, using HTML5, CSS3, and JavaScript, as well as unit testing hundreds of design and functionality updates.

AUGUST 2015 – JULY 2018
Data Analyst
Applied Systems

• Generated production databases using our ETL tools and wrote DDL/DML T-SQL Queries in MS SQL Server 2008 – 2016 to generate reports and dig deeper into data migration bugs.

• Identified bugs and tested new functionality in existing software during initial, regression, and release testing.

• Managed client conversions to Applied Systems EPIC insurance management software from various source systems including TAM, INSTAR and VISION.

• Completed extensive research of data conversion issues while working closely with our implementation leads to come up with the best solution to our client's problems.

• Designed workflow and troubleshooting documentation for department wide use.
